

Jacto Backpack Accessories / Attachments:

Herbicide Hood (Wide) – P/N 761882

- Reduces drift for spraying around sensitive areas. *The “wide” herbicide hood remains a viable choice and is not being discontinued even as the narrow hood is introduced.*

Herbicide Hood (Narrow) – P/N 1222737

- Reduces drift for spraying around sensitive areas – narrow for added precision.

Wand Extension – P/N 728139

- Add to the existing wand and increase the length by 600mm (almost 24”).

Wand Extension 600 – P/N 1222729

- Add to the existing wand and increase the length by 600mm (almost 24”).

Double Nozzle Holder - P/N 100016

- Allows the use of two nozzles at the same time for increased volume and swath.

“Y” Nozzle Holder - P/N 336115

- Allows the use of two nozzles at the same time to increase volume and swath.

“Y” Nozzle Holder - P/N 1222730

- Allows the use of two nozzles at the same time to increase volume and swath.

Flexible Boom – P/N 907873

- The boom is made of flexible brass so it can be adjusted to fit most spray patterns and odd row shapes.

Jacto Backpack Accessories / Attachments:

Bed Boom – P/N 073296

- Four nozzles spaced for remarkable coverage of vegetable and flower beds.

Bed Boom – P/N 1222736

- Four nozzles spaced for remarkable coverage of vegetable and flower beds.

Spray Boom – P/N 902296

- Designed for spraying vegetable beds or to increase spray swath. 500mm (19.5-inch) nozzle spacing.

Spray Boom 500 – P/N 1222718

- Designed for spraying vegetable beds or to increase spray swath. 500mm (19.5-inch) nozzle spacing.

Calibration Bottle – P/N 834309

- To properly calibrate the sprayer application rate.

Maintenance Tool – P/N 452284

- Used to easily maintain your sprayer

Short Wand 300– P/N 831107

- 11.8" (300mm) wand used for spraying in tighter areas

Measuring Cup – P/N 963959

- Dosage cup for measuring chemicals

Jacto Backpack Accessories / Attachments:

ECOVALVE

- EcoValve is a constant pressure and anti-drip valve all in one. It provides a uniform volume of liquid reducing waste and requiring less pumping.

Ecovalve	P/N
Green – 15 psi	1197164
Yellow – 21 psi	1197159
Blue – 30 psi	1197163
Red – 44 psi	1197162

Adjustable Cone Nozzles

- Adjustable cone nozzles allow for quick changes from a wide cone to a solid stream without losing a step. Available in three output amounts.

Nozzle	P/N
Yellow	323725
Red	015024
Blue	325787

Low Drift Nozzles

- Large droplet nozzle for reduced drift. Great for herbicide applications.

Nozzle	P/N
LD 110015 – Green	1197521
LD 11002 – Yellow	1197528
LD 11003 – Blue	1197529
LD 11004 – Red	1197530
LD 11005 Brown	1197531
LD 11006 – Gray	1197532
LD 11008 - White	1197533

Jacto Backpack Accessories / Attachments:

Air Injected Nozzles

- Air is injected into the droplet increase the droplet size and reducing drifts. Great for applying herbicides.

Nozzle	P/N
Ai 120015 - Green	1197497
Ai 12002 – Yellow	1197499
Ai 120025 – Lilac	1197500
Ai 12003 – Blue	1197501
Ai 12004 – Red	1197503
Ai 12005 - Brown	1197504

Even Fan Nozzles

- Even Fan nozzles produce an even flow of fluid across the spray swath creating a more uniform spray pattern and improved efficiency.

Nozzle	P/N
EF 8001 - Orange	1197534
EF 80015 - Green	1197535
EF 8002 - Yellow	1197536
EF 8003 - Blue	1197537
EF 8003 - Red	1197538
EF 8005 - Brown	1197541

Deflector Fan Nozzle

- Deflector fan nozzles produce large droplets for reduced drift.

Nozzle	P/N
DF 01 – Orange	1198895
DF 02 – Yellow	1197483
DF 03 – Blue	1197485
DF 04 – Red	1197486
DF 05 – Brown	1197487
DF 06 - Gray	1197488
